

Yorke Drive Combined Planning Conditions Tracker - Outline and Reserved Matters Permissions

Key

☑ **Completed**

The planning condition has been discharged

📁 **In progress**

This is where we are working to discharge the planning condition

★ **Yes**

Pre-commencement condition. These must be discharged before a start on site is allowed. The other conditions must be completed before certain stages in the construction programme or occupation.

Permission	Condition No.	Summarised condition	Status	Pre-commencement?
Outline	4	Legal agreement Before most building starts, the landowners and the Council need to complete a legal agreement called a Section 106 and a Unilateral Undertaking. This helps make sure promises linked to the development are legally secured.	📁 In progress	★ Yes
Outline	11	Pavilion The design for the pavilion, including the community hall and changing rooms, has to be approved by the Council before it is built.	☑ Completed	★ Yes
Outline	12	Archaeology Archaeologists need to check the site for important historic remains before building starts in certain areas. The Council is waiting for final confirmation that the archive evidence is sorted.	📁 In progress	★ Yes
Outline	16	Construction Environmental Management Plan The builders must send in a plan explaining how they will manage the building works safely, including construction traffic, dust, noise and air quality measures.	📁 In progress	★ Yes
Outline	19	Foul drainage The team must show how wastewater from the homes and buildings will be safely removed before the phase is used.	☑ Completed	★ Yes
Outline	22	Public rights of way If public footpaths or routes are affected, the team must explain whether they will be temporarily moved, permanently changed, or stopped up.	📁 In progress	★ Yes
Outline	27	Construction traffic A traffic plan is needed to show where construction vehicles will enter, leave and travel, so building traffic can be managed safely.	📁 In progress	★ Yes
Outline	17	Contamination and ground safety The land needs to be checked for pollution or contamination. If anything unexpected is found, work may need to stop in that area until it is made safe.	📁 In progress	★ Yes
Outline	18	Ecological enhancements The development should include improvements for wildlife, such as bird boxes or bat boxes, and these should be provided at the right time.	☑ Completed	★ Yes
Outline	8	Playing field phasing If work affects existing playing fields, replacement playing field space must be ready first, or temporary alternative arrangements must be agreed.	☑ Completed	No

Outline	10	Playing field management Before the improved playing fields are used, there must be a clear plan showing who will look after them and how often maintenance will happen.	 Completed	No
Outline	20	Bird nesting season Trees and hedges should not be removed during bird nesting season unless an ecologist checks them first and the Council accepts the report.	Compliance	No
Outline	23	Roads, parking and lighting Before relevant work starts, the Council must approve details like parking spaces, road layout, access widths, street lighting, surfaces and drainage.	 In progress	No
Outline	24	Lincoln Road access Only a limited number of homes can be occupied before a suitable new access from Lincoln Road is provided.	Compliance	No
Outline	25	Visibility at junction The new Lincoln Road junction must not have planting which blocks visibility.	Compliance	No
Outline	26	Travel Plan A Travel Plan is needed to encourage people to use more sustainable travel, like walking, cycling, buses and car sharing.	 Completed	No
Outline	28	Bat Mitigation Strategy Because bats may use parts of the site, a plan is needed to protect them before demolition or building happens.	 Completed	No
Outline	29	Noise Assessment The team needs to check whether noise could affect new homes and, if needed, provide measures to reduce noise before people move in.	 Completed	No
Outline	1	Development start date The development must begin within the allowed legal time limit, based on the planning permission and reserved matters approvals.	Compliance	No
Outline	2	Reserved matters Detailed plans for appearance, landscaping, layout and scale must be approved before development begins and then followed.	 Completed	No
Outline	3	Phasing plan The site must be built in agreed phases, with each phase following the latest approved phasing plan and programme.	 Completed	No
Outline	5	Masterplan The detailed designs should follow the approved masterplan and design documents unless the Council agrees otherwise.	Compliance	No
Outline	6	Number of homes The whole development is allowed to include no more than 320 homes.	Compliance	No
Outline	7	Building height Buildings next to Lincoln Road must not be higher than 3 storeys.	Compliance	No
Outline	9	Pitch improvement strategy Where playing fields are affected, there must be a plan to improve the sports pitches and deliver the works in the right order.	 Completed	No

Outline	14	Landscaping The team must show where planting, grass, paths, hard surfaces and other landscape features will go, and when the work will be done.	☑ Completed	No
Outline	15	Working hours Construction work and deliveries can only happen during the approved hours, unless the Council agrees something different.	Compliance	No
Outline	21	Rehousing residents Where homes are demolished or new homes are built, there must be a schedule explaining the housing mix, tenure and how existing residents will be rehoused.	Compliance	No
Outline	13	Trees and hedgerows The application must explain how existing trees and hedges will be protected, and why any removals are needed.	☑ Completed	No
Reserved Matters	3	Bricks and roof tiles The bricks and roof tiles are not fully approved yet. Before bricks are laid above damp-proof course, or roof tiles are put on, the team must send details like the maker, colour and material to the Council.	☑ Completed	★ Yes
Reserved Matters	14	Public rights of way surfaces Before development starts, the Council must approve details for public paths, including their surface, width and how they will be looked after.	📁 In progress	★ Yes
Reserved Matters	16	Surface water drainage Before development starts, the team must provide a detailed drainage plan showing how rainwater will be managed safely, including SuDS, calculations, outfalls, maintenance and flood-risk controls.	☑ Completed	★ Yes
Reserved Matters	21	Pumping station noise Before the pumping station is built, the team must check whether it could be noisy and provide a plan to reduce noise if needed.	📁 In progress	★ Yes
Reserved Matters	23	Ecological enhancements Before each phase starts, the team must provide a wildlife improvement plan, such as bird boxes or bat boxes, and say when the improvements will happen.	☑ Completed	★ Yes
Reserved Matters	2	Street furniture and public area items Before anyone moves into the first home, the Council must approve items in public areas, like benches, bins, signs, safety fencing, lighting and lifebuoys near ponds.	📁 In progress	No
Reserved Matters	4	Boundary treatments Before first occupation, the Council must approve boundary details such as fences, walls, heights, materials and hedgehog highways.	📁 In progress	No
Reserved Matters	6	Drives and parking surfaces Homes cannot be occupied until drives and parking areas are properly surfaced, not loose gravel, and water is stopped from running onto the highway.	Compliance	No
Reserved Matters	7	Private drives management Before any home is occupied, the future management and maintenance arrangements for private drives and drainage must be approved.	📁 In progress	No
Reserved Matters	10	Visibility splays for plots 141 and 150 Plots 141 and 150 cannot be occupied until the Council approves how the land within the visibility splays will be managed and maintained.	📁 In progress	No
Reserved Matters	11	Bus route parking controls Homes in phases 3, 4 and 5 cannot be built above damp-proof course until measures are agreed to stop parking at junctions along the future bus route.	📁 In progress	No

Reserved Matters	12	Road-side planting Before homes are occupied in a phase or sub-phase, the Council must approve the planting in road-side verges and agree when it will be planted.	 In progress	No
Reserved Matters	13	Parking surveys After the 74th home in Phase 1 is occupied and the sports grounds are in use, parking surveys must be done. The results and any fixes must then be sent to the Council.	 In progress	No
Reserved Matters	22	Biodiversity monitoring Before biodiversity improvements are made, the team must explain how they will be monitored after construction and who will be responsible for them.	 Completed	No
Reserved Matters	1	Approved plans The development must be built in line with the approved plans and documents.	Compliance	No
Reserved Matters	5	Stopping-Up Order The development needs a Stopping-Up Order. The public highway must not be blocked until the order has been secured.	Compliance	No
Reserved Matters	8	Pedestrian visibility splays Visibility splays on the route from Lincoln Road to the sports ground must be created and kept clear of obstructions over 0.6m high.	Compliance	No
Reserved Matters	9	No hedges near visibility splays Hedges must not be planted within 1 metre of the rear of any junction or visibility splay.	Compliance	No
Reserved Matters	15	Public Rights of Way diversion The public rights of way need to be permanently diverted. They must not be blocked until the diversion order is approved by the Department for Transport.	Compliance	No
Reserved Matters	17	Playing fields and pavilion delivery The playing fields, pavilion and parking must be provided in line with the approved specifications and phasing plans.	Compliance	No
Reserved Matters	18	Pitch improvement and maintenance The pitches must be built using the approved Pitch Improvement Strategy and then maintained using the Pitch Maintenance Guidelines.	Compliance	No
Reserved Matters	19	Ball stop fencing Playing pitches cannot be used until the ball stop fencing is fully put up and it must be maintained for the life of the development.	Compliance	No
Reserved Matters	20	Noise mitigation for homes The development must follow the submitted noise assessment. Homes affected by noise cannot be occupied until the required noise-reduction measures are installed and working.	Compliance	No
