Achievability Conclusions:

Achievability Comments:

There is nothing to suggest the site is not achievable

OVERALL CONCLUSION:

The site is separate from the village boundary and is not considered suitable for development. Although the site is both available and achievable. Part of the site lies within Flood Zone 2. Any Development would need to take account of the presence of Public Rights of Way within the site. Potential contamination issues at the site would need to be investigated and mitigated if necessary. However, the site lies outside the main built up area and is with open countryside; therefore contrary to policy.

Additional Comments

Agent says lake would in any case be retained. Greenfield frontage could be developed independently of the PDL furniture business redevelopment – it may be worth subdividing the site to two SHELAA units.

Agent has proposed a new settlement boundary for Sutton-on-Trent but the Plan Review is unlikely to amend it.

Yield: Assuming the lake were not counted as open space, there's ~1.5ha of developable area which would be 32 dwellings.
