Subject: Kelham Solar Appeal

[CAUTION: This email originated from outside of the organisation. Do not click on links or open attachments unless you recognise the sender and know the content is safe]

Morning Bryony,

I am currently live streaming the appeal. Unfortunately, I've got shingles so am unable to attend in person.

Please can someone inform the defense team/inspector with regard to access to Kelham Hall, the public have only recently been stoped from accessing the grounds. Access can be gained by ringing the bell. It's also important to note that the village Church is located in the grounds of the Hall.

Also in terms of cumulative effect I can take the public footpaths from Staythorpe in a circular route via Averham Park which passes through Staythorpe South BESS, along the edge of the RWE power Station to Averham Church, along to Kelham and through this potential site and along the potential GNR BESS element to Averham Park then back across the A617 over Mickleborough Hill down to Upton and back sown to Staythorpe. Views of Power Station, substation Staythorpe South and North BESS from Mickleborough Hill/Upton.

Best regards,

Carla Bradbury
